Re: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

I write on behalf of Repertorio Español to express support for the proposed joint venture between Comcast and NBC Universal (NBCU).

Repertorio Español is New York's most respected Spanish-language theater dedicated to presenting plays by Hispanics from the United States as well as classic and contemporary works from Latin America and Spain. The Company, founded in 1968, is a nonprofit organization that has garnered critical acclaim, recognition by its peers and the support of public and private entities. Repertorio Español serves the tri-state area from its resident theatre in Manhattan and also presents its works on tour throughout the United States and abroad.

NBCU and its subsidiary Telemundo WNJU 47 have been instrumental partners in our mission of making Spanish-language theatre accessible to seniors, students and Hispanics of all national backgrounds. Their support has helped us to strengthen our mission of divulging the rich Hispanic cultural heritage to our communities.

Given their record of community involvement and Comcast's commitments with regard to diversity as well as the prospective benefits for our community, Repertorio believes that allowing the merger of these two corporations will bring, through synergy, increased resources and commitment that will benefit the Latino communities.

This union has a potential for increased employment, more diversity and additional philanthropy. It is for these reasons that we respectfully ask the Federal Communications Commission to approve the joint venture between Comcast and NBCU and its subsidiary Telemundo WNJU 47. Please do not hesitate to contact us shall you have any questions or need additional information.

Sincerely,

Robert Federico
Executive Director
